PROFESSIONAL SUMMARY

Computer Science & Information Technology student at Helwan National University with a strong interest in Data Engineering and Big Data Engineering. Currently enrolled in the DEPI Data Science – Microsoft Data Engineer Track, with hands-on academic experience in Python scripting, SQL, Microsoft SQL Server, and relational database (RDBMS) development. Built practical projects involving relational databases, networking, cybersecurity, and web technologies. Strong foundation in algorithms, programming, computer networks, and operating systems, with strong problem-solving skills and a focus on growing into a Big Data Engineer role.

WORK EXPERIENCE

DEPI — Trainee, Data Science: Microsoft Data Engineer Track | Jul 2026 – Present

- Developing knowledge and practical skills in Data Science, Big Data, and Microsoft Data Engineering.
- Completed technical assignments as part of the training program.

National Telecommunication Institute (NTI) — Cybersecurity Trainee & Freelancer | Sep 2025

- Completed 60 technical training hours and 12 freelance hours.
- Studied networking fundamentals and cybersecurity concepts.
- Practiced cybersecurity tools and techniques using Kali Linux, including Nmap.
- Gained practical exposure to network security concepts.

EDUCATION

Helwan National University (HNU) | 2024 – 2028

Bachelor of Computer Science & Information Technology (CSIT)

Relevant Coursework: Database Systems • Algorithms • Programming Languages • Computer Networks • Operating Systems • System Analysis & Design • Internet Technology • Logic Design

TECHNICAL SKILLS

Programming: Python (Scripting), C, C++, Java

Data & Databases: SQL, Microsoft SQL Server, RDBMS (Relational Database Management Systems), Big Data Concepts, Database Design Fundamentals

Networking & Cybersecurity: CCNA, Networking Fundamentals, Kali Linux, Nmap, Wireshark, ARP Spoofing, mitmproxy

Web Technologies: HTML, CSS, JavaScript

Core Concepts: Algorithms, Programming Fundamentals, Big Data Fundamentals, Operating Systems, System Analysis & Design

SOFT SKILLS

- Problem-Solving — breaking down technical issues and finding practical solutions.
- Teamwork — collaborating effectively with peers on group projects and labs.
- Working Under Pressure — staying focused and meeting deadlines during exams and project deliverables.
- Communication — explaining technical concepts clearly to both technical and non-technical audiences.
- Active Listening — understanding requirements and feedback accurately before acting on them.
- Adaptability — quickly picking up new tools and technologies across different courses and projects.

ACADEMIC PROJECTS

SQL Database Project | Database Course – Microsoft SQL Server

- Designed and implemented a small relational database using Microsoft SQL Server.

- Applied SQL and database design fundamentals in a practical academic project.

MITM Lab — Man-in-the-Middle Attack | *Cybersecurity Project*

- Conducted a controlled MITM attack simulation in an isolated testing environment.
- Performed network discovery to identify devices and the gateway.
- Used ARP spoofing to redirect traffic through the testing machine.
- Used mitmproxy/mitmweb to inspect and intercept web requests within the lab environment.
- Used Wireshark for network traffic analysis.

Online Book Store Website | *Internet Technology Course*

- Developed a front-end online book-selling website.
- Used HTML, CSS, and JavaScript to build the website interface.

LED Pattern & 555 Timer | *Logic Design Course*

- Designed an LED sequence pattern where LEDs light up consecutively.
- Used a 555 timer to control the timing of the LED sequence.

Light Sensor & LED Circuit | *Electronics Course*

- Built a light-sensing circuit using a sensor, breadboard, resistors, and LEDs.
- Designed the circuit so the LED responds automatically to changes in the surrounding light.

CERTIFICATION

Cybersecurity Academy (Undergraduate Level) | *National Telecommunication Institute (NTI) | Sep 2025*

60 Technical Hours + 12 Freelance Hours

SQL (Advanced) - HackerRank

Python Certification - Kaggle

Pandas Certification - Kaggle

LANGUAGES

Arabic: Native

English: Intermediate
